DVL, the Company and the Joint Venture further agree that Huasheng shall be responsible to settle all outstanding taxation payable by it in relation to Huasheng and the Target Property, including but not limited to corporate income tax, land appreciation tax, and other forms of tax, local surcharge, levy, impost, contribution, duty and liability in the nature of taxation and all related withholdings or deductions of any nature (including, for

LETTER FROM THE BOARD

the avoidance of doubt, social insurance contribution liabilities in the PRC) and corporate income tax arising from the Disposal which is charged to DVL for tax periods ending on the Completion Date up to a maximum amount of RMB25 million. In the event that the outstanding taxation for tax periods ending on the Completion Date payable by Huasheng exceeds RMB25 million, DVL shall indemnify the Joint Venture for such amount of taxation in excess of RMB25 million. For the avoidance of doubt, if solely as a result of a sale of the owned property (other than any sale of certain underground carpark) by Huasheng, that Huasheng's liability for taxation (including but not limited to corporate income tax, land appreciation tax, and other forms of tax, local surcharge, levy, impost, contribution, duty and liability in the nature of taxation and all related withholdings or deductions of any nature (including, for the avoidance of doubt, social insurance contribution liabilities in the PRC)) for tax periods before the Completion Date is increased, then such additional amount of taxation liability shall be borne solely by Huasheng and DVL shall not be required to indemnify the Joint Venture for such additional amount of taxation liability.

The maximum amount of taxation payable by Huasheng of RMB25 million was determined based on a taxation advice obtained by Huasheng from its PRC tax advisor, calculated based on (i) the estimated total land appreciation tax payable by Huasheng and less the amount already paid by Huasheng; and (ii) the estimated taxation to be paid pursuant to the Notice of the State Administration of Taxation on Strengthening the Administration of Corporate Income Tax on Gains derived by Non-resident Enterprise from Equity Transfers, Guoshuihan [2009] No. 698 (《國家稅務總局關於加強非居民企業股權轉讓所得企業所得稅管理的通知》(國稅函(2009)698號)) and related rules and laws including the Announcement of the PRC State Administration of Taxation on Several Issues concerning the Enterprise Income Tax on the Indirect Transfers of Assets by Non-Resident Enterprises, Gong Gao [2015] No. 7 (《國家稅務總局關於非居民企業間接轉讓財產企業所得稅若干問題的公告》(2015年第七號公告)) dated 3 February 2015 arising from the Disposal. The Directors of the Company estimated that the maximum taxation amount to be indemnified by DVL (if any) should be minimal and should not exceed RMB2 million.

INFORMATION OF THE TARGET GROUP

The Target Company is an investment holding company incorporated in the BVI with limited liability. As at the Latest Practicable Date, the Target Company, being a direct wholly-owned subsidiary of DVL, is an indirect wholly-owned subsidiary of the Company. The Target Company wholly-owns all the equity interests in Huasheng that owns the Target Property.

As at the Latest Practicable Date, the Target Property is being used as a business hotel which is known as the Starway Parkview South Station Hotel located adjacent to the Shanghai Botanical Gardens and near the perimeter of the Middle Ring Road in Shanghai, the PRC. It is intended that the Target Property will be converted into and operated as a service apartment after the Completion.

LETTER FROM THE BOARD

Set out below is the audited consolidated financial information of the Target Group for the years ended 31 March 2015 and 31 March 2016, respectively, prepared under HKFRS:

	For the year ended 31 March 2015	For the year ended 31 March 2016
	<i>HK\$'000</i>	<i>HK\$'000</i>
Net profit before taxation	8,467	9,743
Net profit after taxation	7,023	6,108

As at 31 August 2016, the unaudited consolidated net asset value of the Target Group was approximately HK\$95.7 million.

FINANCIAL EFFECT OF THE TRANSACTIONS

It is expected that, the Company will record a gain from the Disposal of approximately HK\$2.7 million (subject to audit and before expenses and taxes), which is calculated based on the difference between the Consideration attributable to the Sale Shares and the unaudited consolidated net asset value of the Target Group as of 31 August 2016.

At the grant of the Call Option, given that there is no agreed fixed exercise price and on the basis that the exercise price will be at least the Investment Costs (which in turn was determined with reference to the net asset value of the Target Group), there is no difference in fair value of the underlying right of the Call Option. Accordingly, there will be no recognition of financial liabilities in the consolidated statement of financial positions of the Company and no recognition of fair value gain or loss in the consolidated statement of profit or loss of the Company. As the exercise price is not fixed at this moment, there will not be any subsequent fair value change to be recognised as profit or loss in the consolidated statement of profit or loss of the Company. At the time of exercise of the Call Option, the Call Option remains nil value, there will be no impact in the consolidated statement of financial positions or the consolidated statement of profit or loss relating to fair value of the underlying right of the Call Option. The actual gain or loss from the disposal arising from the exercise of the Call Option will depend on the actual exercise price paid and calculated against the then consolidated net asset value of the Target Group.

Shareholders should note that the exact amount of the gain on the Disposal to be recorded in the consolidated statement of profit or loss of the Group for the year ending 31 March 2017 and the accounting treatments of the value of the Call Option and the gains or losses from the disposal arising from the exercise of the Call Option are subject to audit, and will be calculated based on the net asset value of the Target Group as at Completion or as at the completion of transfer of the Option Shares after the exercise of the Call Option, respectively, and net of any incidental expenses and therefore may be varied from the figures provided above.

USE OF PROCEEDS FROM THE DISPOSAL

It is intended that the net proceeds from the Disposal will be applied for investment and capital expenditure and as general working capital of the Group as follows:

- (a) approximately 36% of the net proceeds will be used by the Group for repayment of bank and other borrowings of its projects in Kaifeng, the PRC, so as to reduce the overall interest expenses of the Group;

LETTER FROM THE BOARD

- (b) approximately 27% of the net proceeds will be used by the Group for repayment of bank and other borrowings in Hong Kong, the PRC, so as to reduce the overall interest expenses of the Group; and
- (c) the remaining 37% of the net proceeds will be used by the Group for its general working capital for its operations in Hong Kong as well as its projects in Kaifeng, the PRC.

INFORMATION OF HOVERJET

Hoverjet is an investment holding company incorporated in the BVI. It is an investment made by Partners Group, the global private markets investment manager, on behalf of its clients and operated by Pamfleet, an experienced real estate investment advisor in Asia.

INFORMATION OF THE GROUP

The Company is an investment holding company and the principal activities of its subsidiaries consist of (a) property development and investment; (b) trading of medical equipment and home security and automation products, and provision of related installation and maintenance services as well as trading of various granite and marble products, stone slabs and products for construction market; (c) the construction business, as a main contractor and decoration, as well as the provision of electrical and mechanical engineering services, mainly in Hong Kong, and the PRC and Macau; and (d) investment in securities.

REASONS FOR AND BENEFITS OF THE TRANSACTIONS

The Board considers that the Disposal will bring in a strategic shareholder with strong real estate management background which will help to improve the long term growth potential of the Target Property, which will be beneficial to the Group and Shareholders as a whole. The Target Property is a mature asset, which whilst providing a stable rental income, does not have the growth in terms of earnings expected by the Board. The Company wishes to realise the full value of the Target Property. The Disposal enables the Group to recycle capital into future investment opportunities. The Directors are of the view that the Disposal will benefit the Group by realising its investment and also strengthen the liquidity and overall financial position of the Group. On the other hand, the Joint Venture enables the Group to continue to have a share of profit from the long term growth potential of the Target Property. Hoverjet and DVL have agreed the mechanism in determining the exercise price of the Call Option in the Shareholders' Agreement. The Call Option, once exercised by Hoverjet, will require the Group to sell the Option Shares at the pre-determined price, being the price to be determined in accordance with the valuation of the Option Shares by an auditor to be appointed, with reference to, amongst others, the market valuation of the real property assets of the Target Group, other tangible assets and related liabilities but in no event that it shall be less than the Investment Costs of the Option Shares. The management of the Company is of the view that, as at the Latest Practicable Date, the real property market in Shanghai remains challenging. The value of the Target Property may go upwards or downwards after the Completion Date. The Call Option allowed the Group to lock in the minimum exercise price that the Group will be required to sell if at the time of the exercise of the Call Option by Hoverjet, the market value of the Target Property falls below the current market value (as the exercise price of the Option Shares will not be less than the Investment Costs). At the same time, the Call Option, once exercised by Hoverjet, will require DVL to sell the Option Shares based on the market value of the Target Property without the need to further renegotiate with Hoverjet if the market value of the Target

LETTER FROM THE BOARD

Property appreciates above the Investment Costs at the time of the exercise of the Call Option by Hoverjet. Accordingly, the Call Option under the Shareholders' Agreement will provide an exit opportunity of the Company's investment in the Joint Venture.

Having regard to the benefits from the Transactions and the expected gain from the Disposal as stated above, the Directors (including the independent non-executive Directors) consider that the terms of the Shareholders' Agreement and the Agreement are fair and reasonable and the Transactions are on normal commercial terms and in the ordinary usual course of business of the Group and are in the interests of the Company and the Shareholders as a whole.

IMPLICATION OF THE LISTING RULES

As none of the applicable percentage ratios as calculated under Rule 14.07 of the Listing Rules in respect of the formation of the Joint Venture exceed 5%, the entering into of the Shareholders' Agreement does not constitute a discloseable transaction of the Company under Chapter 14 of the Listing Rules.

Pursuant to Rule 14.74 of the Listing Rules, the grant of the Call Option (the exercise of which is not at the Company's discretion) will be classified as if the Call Option had been exercised. As one or more of the applicable percentage ratios as calculated under Rule 14.07 of the Listing Rules in respect of the Call Option exceed 5% but are less than 25%, the granting of the Call Option constitutes a discloseable transaction for the Company under Chapter 14 of the Listing Rules and is therefore subject to the reporting and announcement requirements but does not require approval of the Shareholders under Chapter 14 of the Listing Rules. To the best estimation of the Company, the exercise of the Call Option by Hoverjet, in aggregation with the Disposal under the Agreement, will not result in a change in the transaction classification of the Disposal under Chapter 14 of the Listing Rules. The Company will comply with the applicable requirements of the Listing Rules and make further disclosure in this respect if and when appropriate at the time of exercise of the Call Option.

As one or more of the applicable percentage ratios as calculated under Rule 14.07 of the Listing Rules in respect of the Disposal exceed 25% but is less than 75%, the Disposal constitutes a major transaction of the Company under Chapter 14 of the Listing Rules and is therefore subject to reporting, announcement, circular and shareholders' approval requirements under Chapter 14 of the Listing Rules.

Given that the Transactions are a series of transactions involving the acquisition or disposal of parts of one asset, these transactions will be aggregated pursuant to Rule 14.22 of the Listing Rules. As one or more of the applicable percentage ratios as calculated under Rule 14.07 of the Listing Rules in relation to the Transactions exceed 25% but is less than 75%, the Transactions constitute a major transaction of the Company under Chapter 14 of the Listing Rules and are therefore subject to reporting, announcement, circular and shareholders' approval requirements under Chapter 14 of the Listing Rules.

None of the Directors has a material interest in the Shareholders' Agreement, the Agreement, the Transactions and the transaction contemplated therein. Accordingly, no Director is required to abstain from voting on the relevant Board resolutions of the Company in respect of the approval of the Shareholders' Agreement, the Agreement, the Transactions and the transaction contemplated thereunder.

LETTER FROM THE BOARD

The Company will convene the SGM to seek, among other things, the approval of the Shareholders for the Shareholders' Agreement, the Agreement and the Transactions and the transaction contemplated thereunder. To the best knowledge, information and belief of the Directors, having made all reasonable enquiry, no Shareholder has any material interest in the Shareholders' Agreement, the Agreement and the Transactions and the transaction contemplated thereunder and no Shareholder will be required to abstain from voting on the resolutions to be proposed at the SGM.

SGM

The SGM will be convened and held at 11th Floor, Nanyang Plaza, 57 Hung To Road, Kwun Tong, Kowloon, Hong Kong on Thursday, 10 November 2016 at 10:30 a.m. to consider and, if thought fit, approve the Shareholders' Agreement, Agreement, the Transactions and the transactions contemplated thereunder. A notice convening the SGM is set out on pages 41 to 42 of this circular.

A form of proxy for use at the SGM is enclosed with this circular. Whether or not you are able to attend the SGM, you are requested to complete the accompanying form of proxy in accordance with the instructions printed thereon and return it to the Company's branch share registrar and transfer office in Hong Kong, Tricor Tengis Limited at Level 22, Hopewell Centre, 183 Queen's Road East, Hong Kong as soon as possible and in any event not less than 48 hours before the time appointed for holding the SGM or any adjournment thereof. Completion and return of the form of proxy will not preclude you from attending and voting in person at the SGM or adjournment thereof should you so wish.

VOTING BY POLL AT SGM

Pursuant to the Rule 13.39(4) of the Listing Rules, any votes of shareholders at a general meeting must be taken by poll except where the chairman of the meeting, in good faith and in compliance with the Listing Rules, decides to allow a resolution which relates purely to a procedural or administrative matter to be voted on by a show of hands. Therefore, pursuant to Bye-Law 69 each resolution set out in the notice to the SGM which is put to vote at the SGM shall be decided by poll. The Company will appoint scrutineers to handle vote-taking procedures at the SGM. The results of the poll will be published on the Stock Exchange's website at www.hkexnews.hk and the Company's website at www.deson.com as soon as possible after the conclusion of the SGM.

RECOMMENDATION

The Directors (including the independent non-executive Directors) believe that the terms of the Shareholders' Agreement and the Agreement are on normal commercial terms, in the ordinary and usual course of business and are fair and reasonable and are in the interests of the Company and the Shareholders as a whole. The Directors also consider that the Transactions are in the interests of the Company and the Shareholders as a whole. Accordingly, the Board recommend all the Shareholders to vote in favour of the resolutions approving the Shareholders' Agreement, the Agreement and the Transactions and the transaction contemplated thereunder at the SGM.

3. WORKING CAPITAL SUFFICIENCY

4. FINANCIAL TRADING PROSPECTS

Property development and investment

On 9 June 2005, the Group was granted the land use rights of a development site in Long Ting district of the city of Kaifeng. The Directors intended to develop a residential and commercial complex on the site with an estimated gross floor area of approximately 221,000 sq. metres. Up to now, a gross floor area of 190,000 sq. metres had completed construction and the total sales contract sum achieved amounted to approximately RMB754 million. The remaining land is under construction, processing smoothly, and it is expected that the construction will be completed by 2017.

On 16 February 2012, the Group successfully won a bid for the acquisition of land use right of a residential and commercial site in the city of Kaifeng. The Directors intended to develop a residential and commercial complex on the site with an estimated gross floor area of approximately 100,000 sq. metres. Up to now, gross floor area of 20,000 sq. metres had completed construction. It included two commercial buildings with gross floor area of 15,000 sq. metres and an animation theatre with gross floor area of around 5,000 sq. metres. The total sales contract sum achieved from the sales of commercial properties amounted to approximately RMB23 million. The animation theatre was named as “Qing-Ming Riverside Anime Exhibition” and was used to show the animation of 清明上河圖 in 2010 Shanghai Expo. It was planned to become a tourist spot at Kaifeng City. It was expected that the construction of the whole project will be completed by 2018.

In September 2014, the Group was granted another land use right in city of Kaifeng, the PRC, named as Zhu Ji Lane (珠璣巷). The Directors intended to develop a commercial street project with a total gross floor area of approximately 13,000 sq. metres. It was put in use in the 27th World Hakka Conference which was held in October 2014. As of now, the project has completed. The total contract sum achieved from the sales of this area amounted to approximately RMB7 million. Most of the units have already been rented out during the year.

The first half of year 2015 was a tough period with the gradual slow growth of the PRC economy. The business performance of the Group for the year ended 31 March 2016 has gradually slowed down. In the first half of year 2015, the Central People’s Government continued its relaxation policies towards the property sector implemented since the second half of year 2014. Starting from the second quarter of year 2015, the property market has generally stabilised and signified a growth momentum. In order to resolve the basic issue of excessive supply over demand in many cities, the Central People’s Government and local governments pursued adjustment measures to address both supply and demand. Land supply and land usage were optimised. Smaller down payments for the purchase of second homes, as well as tax concessions, were also in place so as to stimulate end-users’ demands for upgrading. Coupled with the lowering of the interest rate and required reserve ratio which served to facilitate a stable economic development, the property industry stood to benefit as a whole.

The Board remains optimistic about the property market in the PRC and the Group will continue to place emphasis on strengthening the property development and investment business. The Group may acquire additional land to enrichen the Group's land reserve, specifically in the second and third-tier cities in the PRC where the markets continue to be bullish and growth potential is consistently increasing. However, the Group currently has no specific investment plan in relation to any particular project.

Construction business (including E&M works)

The Group will uphold an on-going parallel development of its construction business (including building construction and E&M works) in the PRC, Hong Kong and Macau. To cope with the difficulties encountered in the construction and engineering industry, the Group has adopted a prudent strategy in project tendering.

With its proven track record and adequate expertise in the main contracting business, the Group obtained the "List of Approved Contractors for Public Works under Group C of the Building Category under Environment, Transport and Works Bureau of the HKSAR". Together with the licence in Group II under the "Turn-key Interior Design and Fitting-out Works" under the "List of Approved Suppliers of Materials and Specialist Contractors for Public Works" and the 11 licences held under the "List of Approved Suppliers of Materials and Specialist Contractors for Public Works under Environment, Transport and Works Bureau of the Government of the HKSAR", it enabled the Group to take an active part in the construction business development.

During the year, new projects such as acting as the main contractor for the development of one residential house and associated external works including:

1. Construction of substructure and superstructure works, building services and interior fitting-out works at Hoi Fung Path, Stanley, Hong Kong;
2. Fitting-out works (including E&M works) for three Prada/Miu Miu shops at Wynn Palace, Macau;
3. Fitting-out works (including E&M works) for three Prada/Miu Miu shops at City of Dreams, Macau;
4. Fitting-out works (including E&M works) at Purves Road, Hong Kong;
5. Fire services and MVAC installation of Multimedia Production And Distribution Centre at Tseung Kwan O Industrial Estate, New Territories, Hong Kong;
6. Building services installation for construction of two special schools at Sung On Street, To Kwa Wan, Kowloon;
7. Supply and installation of fire services for redevelopment of Methodist International Church Hong Kong at Queen's Road East, Hong Kong;

8. Building services installation (electrical, MVAC, fire services and plumbing) of a 36-classroom primary school in Area 36, Fanling, New Territories;
9. Addition and alteration works and fitting-out works at Harbour City, Canton Road, Tsim Sha Tsui, Kowloon;
10. Addition and alteration works at East Point Centre, Causeway Bay, Hong Kong;
11. Fitting-out works of an office in Shenzhen, the PRC;
12. Fitting-out works, air-conditioning and ventilation works, plumbing and drainage works, floor heating works and electrical works for a staff social center in Suning, Hebei, the PRC;
13. The fitting-out works for a hotel in Beijing, the PRC; and
14. Addition and alteration works of a hospital in Beijing, the PRC.

As at the date of this circular, the Group has contracts on hand with a total contract sum of over HK\$1,678 million.

With the Group's proven track record, comprehensive services and numerous licences, permits and qualifications, the Directors believe that the Group can strengthen its position in the Hong Kong market and diversify its customer base, particularly by attracting larger corporate customers and tenders for more capital intensive projects for such customers.

The Group is currently operating in the developed cities in the PRC. Urbanisation of the PRC is expected to continue at a rapid pace, particularly the third and fourth-tier cities in the PRC. With the Group's long and established experience in the PRC market, the Directors believe that the Group can grasp such opportunities and selectively expand into the third and fourth-tier cities in the PRC leveraging on the Group's established expertise.

In order to provide comprehensive services to the Group's customers, the Group intends to expand our services under the building construction works from time to time and apply for additional licences, permits or qualifications required. For example, to increase the Group's scope of services for building construction works to include site formation, the Group was approved as a Specialist Contractor (site formation works category) by the Buildings Department of Hong Kong in December 2014. The Directors believe the Group's qualification in site formation will complement the Group's other services.

Trading of medical equipment and home security and automation products

Rising affluence in Hong Kong and the major cities in the PRC, as well as consumers' increasing health awareness (especially among higher-income urban consumers) has continued to create higher demand for medical equipment. The Group's efforts on trading of medical equipment should continue to pay off in sales growth and market penetration in the PRC. In the coming year, the Group will expand its distribution channels and introduce a broader range of products to spur sales growth.

Also, with the increasing safety awareness in Hong Kong and the major cities in the PRC, it is expected that there will be high demand for wired and wireless security devices and systems, applicable to residential estates, commercial offices, shops, hotels, hospitals, museums and prisons.

Going forward, the uncertainty in the world economy and the slowdown in economic growth in the mainland will continue to pose challenges to the Group's business. As a part of its efforts to control inflation and maintain a stable and healthy economic growth, the tightening of policies such as restrictions on home purchase also had certain negative impact on the mainland property market. However, it is expected that the economy of the PRC will sustain a healthy growth, and Hong Kong remains well positioned to benefit from the PRC's continuing growth and development. As such, the Group remains optimistic in the long run and has confidence in the growth momentum in the PRC and Hong Kong.

The Group will continue to adopt efficacious cost management strategies and maintain tight credit control to cope with challenges and enhance competitiveness under the fluctuating operating environment. The Directors will continue to dedicate their best effort to maximise the best interests for the shareholders of the Company.

Investment in securities

Regarding the New Business in investments in securities by DCIHL, DCIHL has set up a Treasury Management Committee ("**Treasury Management Committee**") to implement the investment policy and guidelines on behalf of DCIHL. The Treasury Management Committee comprises of one chairman and two committee members (which is comprised of two directors and the financial controller of DCIHL, of which at least one executive director of DCIHL acts as an investment manager).

The directors of DCIHL consider the development of the investment in securities business will enable DCIHL to diversify its business and broaden its revenue base, and is in the interest of the Company and its shareholders as whole. The Board will adopt cautious measure to manage this business activity aiming at generating additional investment return on available funds of the Group from time to time.

Dear Sirs,

Re: Starway Parkview South Station Hotel, Nos. 218, 220 and 222 Baise Road, Retail on Level 1 and Parkview Club House, Nos. 206 and 208 Baise Road and Car Parking Space Nos. 3, 4, 22, 70, 78 and 79 of Basement Level 1 on Nos. 3 to 6, Lane 238, Baise Road, Xuhui District, Shanghai, the People's Republic of China

In accordance with the instructions from Deson Development International Holdings Limited (the "**Company**") for us to value the captioned property interest in the People's Republic of China (the "**PRC**"), we confirm that we have carried out inspections, made relevant enquiries and obtained such further information as we consider necessary for providing you with our opinion of value of the property interest as at 31 August 2016 (the "**Valuation Date**") for public documentation purpose.

This letter, forming part of our valuation report, identifies the property interest being valued, explains the basis and methodology of our valuation, and lists out the assumptions and title investigation, which we have made in the course of our valuation, as well as the limiting conditions.

Our valuation is our opinion of market value which we would define to mean “the estimated amount for which an asset or liability should exchange on the valuation date between a willing buyer and a willing seller in an arm’s-length transaction after proper marketing and where the parties had each acted knowledgeably, prudently and without compulsion”.

In valuing the property interest, which was held for investment by the Company, we have adopted the Investment Approach by taking into account the current rents passing and the reversionary income potential of the tenancies or, where appropriate, the Direct Comparison Approach by making reference to comparable sales evidence as available in the relevant market.

Our valuation has been made on the assumption that the owner sells the property on the open market in its existing state without the benefit of deferred terms contract, leaseback, joint venture, management agreement or any similar arrangement which could serve to affect the value of the property. No forced sale situation in any manner is assumed in our valuation.

No allowance has been made in our valuation for any charges, mortgages or amounts owing on the property interest or for any expenses or taxation which may be incurred in effecting a sale. Unless otherwise stated, it is assumed that the property interest is free from encumbrances, restrictions and outgoings of an onerous nature which could affect its value.

We have been provided by the Company with copies of documents in relation to the title to the properties located in the PRC. We have not examined the original documents to verify ownership and to ascertain the existence of any amendments which do not appear on the copies handed to us. In the course of our valuation, we have relied on the advice given by the Company and the legal opinions prepared in Shanghai Jiachuang Runhua Law Office, the Company’s legal adviser on the PRC law (the “**PRC Legal Adviser**”), regarding the title to the property.

The property were inspected during April 2016 by Mr. Tony M. W. Cheng, a manager of our firm who has over 10 years of experience in the inspection of properties in Hong Kong and the PRC. We have inspected the exterior and, where possible, the interior of the property. In the course of our inspections, we did not note any serious defects. However, no structural survey has been made and we are therefore unable to report whether the properties is free from rot, infestation or any other defects. No tests were carried out on any of the services.
